

Checklist: Grant requirements

In order to evaluate the effectiveness of the funding program, an accompanying and subsequent performance review is planned. The funding recipients are therefore obliged to provide all data required for monitoring the success of the funding program and specified by the funding provider, in compliance with data protection regulations. In addition, they must participate in surveys, interviews and other data collection activities and provide other required information.

All requirements must be met!

<input type="checkbox"/>	Compliance with the charging station ordinance
<input type="checkbox"/>	Compliance with the measurement and calibration law
<input type="checkbox"/>	Compliance with the Price Indication Ordinance
<input type="checkbox"/>	Possibility of contract-based charging (smart cards, readers, smartphone apps)
<input type="checkbox"/>	Roaming option for customers of regionally active as well as nationally active providers
<input type="checkbox"/>	Online connection of the charging infrastructure (e.g. OCPP to an IT backend)
<input type="checkbox"/>	Preparation of the charging infrastructure for later support of ISO/IEC 15118 implementation
<input type="checkbox"/>	Integration of a smart meter gateway
<input type="checkbox"/>	Hardware and/or software options for retrofitting additional functionalities
<input type="checkbox"/>	Possibility of ad hoc charging <ul style="list-style-type: none"> ○ No authentication (without direct consideration, or against payment by cash in the immediate vicinity of the charging point) or ○ With authentication (by means of a common debit and credit card system via a card terminal with a reader, or a common debit and credit card system contactless by holding a card or mobile terminal, each with near field communication capability, or a common credit card system and one of the payment transactions referred to in Section 38(2)(2) of the Payment Accounts Act browser-based via a free mobile website that does not require permanent registration).
<input type="checkbox"/>	Menu navigation in German and English
<input type="checkbox"/>	for cashless, non-browser-based payment transactions, at least one variant of Internet-based payment must be possible free of charge
<input type="checkbox"/>	Price transparency: the price for ad hoc charging must be indicated at the charging facility
